U. S. SOLDIERS REFUSE TO FIGHT IN RUSSIA  
War With Germany Over and No War Declared on Bolsheviki

BRITISH PLAN  
UNSATISFACTORY

(By Associated Press) PARIS, April 10.—Publication in Paris of a statement attributed to British sources to the effect that the terms of the peace treaty will not be presented to the plenary session of the peace conference until after it has been communicated to the delegates of nations to the council of war. The publication brought from the American mission a statement that it is opposed to such a plan.

MILEAGE BASIS  
ON ELECTION DAY

(By Associated Press) LOS ANGELES, April 10.—By the substitution of indelible pencils for pen and ink which a bill pending before the legislature now provides, election officials of this county would save 200 miles of arm movement, according to David B. Lyons, county registrar of voters, who has just returned from Sacramento. Mr. Lyons estimates that every tally clerk at precinct voting headquarters moves his arm two feet in tallying a vote with pen and ink and approximately one foot to blot his tally. Declaring there are about 25,000 voters in the county, Mr. Lyons calculates the distance tally clerk's arms must travel in tallying these votes with pen, ink and blotter is more than 199 miles. Earlier returns and more legible ones will result from the substitution the county official says.

MORE POWER LINES  
GOING INTO DIVIDE

Power for the Liberty and Calumet companies which are under the management of George Allen, will be delivered before the first of the month, according to a statement from the Nevada California Power company which has closed a contract for putting in a pole line. The service will be tapped in the vicinity of the Gold Zone, a distance of two miles from the younger companies, and no time will be lost in setting the wires up so that delivery may begin soon.

MAN REPORTED BURNED  
IN RUINS OF SHACK

At 9:15 last night the firemen were called to the upper end of Florence avenue by a fire which had gained complete mastery of the premises before the department got there. The place was a total loss. Chief Askin was in charge. When his truck was wrecked he commanded the water company flivver and hauled extra hose to the fire which was 200 feet from the nearest fire plug. The chief thanks citizens who stood by the hose when he had to leave for the wreck of the fire truck. Rumor had it that a man was burned to death but a search of the ruins failed to disclose any evidence.

BABY TURNS ON FUEL  
OIL IN HOT STOVE

When Mr. and Mrs. Frank T. Dunn were away from the kitchen last evening Baby Dunn, two years old, toddled into the kitchen and turned a fuel oil valve which flooded the range and carried fire down into the ash pit. The fire department was called and saved the house with a chemical application.

Eight Men Hold  
Up St. Louis Bank

(By Associated Press) ST. LOUIS, April 10.—Eight men held up the Baden bank in the northern section of this city today and escaped with between \$40,000 and \$50,000.

NATIONAL TROOPS  
OVERCOME SOVIET

(By Associated Press) COPENHAGEN, April 10.—Dispatches from Kissenen report that the citizens and officials of Warsaw have struck against the Russian Soviet republic of that town which now is in the hands of the government troops. Heavy fighting against Spartacan forces occurred when government troops stormed the royal palace and captured the railway station.

EXTREME ECONOMIC  
GRAVITY IN EUROPE

(By Associated Press) PARIS, April 10.—The supreme economic council today adopted a resolution calling the attention of the associated governments to the extreme gravity of the present economic situation in Europe, an official announcement says.

Fire Truck Collides  
With the Kirchen Car

Mr. and Mrs. John G. Kirchen had a narrow escape from being crushed to death last night while riding in their limousine on Main street through a collision with the fire truck while the latter was responding to a call from Upper Florence avenue. The truck was manned by two men owing to the absence of one of the crew on his day off and the fact that Chief Askins was not in the house when the call was received. The men say they rolled out down the hill constantly ringing the bell and sounding on Main street. As the truck turned south on Main street, the Kirchen car driven by Mrs. Kirchen, was near Brougher, almost in the middle of the road heading north, when encountered. Neither driver could stop or avoid the other and a side head collision resulted. The impact threw the occupants of the limousine into one corner. It was feared that the shock would have serious consequences for Mr. Kirchen, whose amputated limb was just healing, and it was feared that the new skin forming over the end of the limb would be torn. As it happened the laceration was light and Miss La Fleur, the nurse, who had the case from the beginning and was in the car, gave prompt first aid. The impact caused a nervous shock which will delay the recovery of the patient for two weeks longer. It has been suggested that the fire department have installed at the flagstaff at the intersection of Brougher avenue a powerful gong which could be tripped when an alarm comes in so that traffic would swing in to the curb and leave the right of way for the fire truck. This system has been adopted in congested city districts where traffic jams sound the gong compelling all vehicles to come to a dead stop until after the fire apparatus passes. The fire truck was put out of commission and the Kirchen car is badly damaged.

POWER LINE FOR  
THE SIMON MINE

The Simon Lead Mines company is engaged in an effort to procure electric power for operating the mine and mill and in the course of time it is expected that a pole line will be constructed to connect with the trunk line of the Nevada California Power company which passes at a distance of about ten miles. H. N. Siegfert, commercial agent of the Riverside power company from the Riverside office, has been visiting the Mina district to report to his company on the cost of making the installation. The Simon company operates now with gasoline equipment. For some time the change has been contemplated and the only question was relative to the cost of building a pole line or establishing a generating station in Mina where fuel oil could be delivered cheaply. The cost of installing the service from that quarter would involve construction of 20 miles of pole line and it is not likely that an independent plant will meet with the approval of the stockholders.

EJECT STRIKERS  
FROM KRUPPS

(By Associated Press) BERLIN, April 10.—Government troops are reported to have entered Essen and occupied the Krupp plant which, according to previous reports, had been seized by Essen strikers. The troops posted artillery and machine guns at the entrance of the plant. As a result of the intervention of the government forces, the activities of the government forces, the strikers state that two-thirds of the workmen resumed their labor.

HUN RIOTERS HAVE  
A FATAL CLASH

(By Associated Press) LONDON, April 10.—Violent fighting has taken place between Hungarians and Czechs at Unkar near the Moravian-Hungarian border, says a Central News dispatch from Amsterdam today. One hundred and fifty Hungarians were killed. The Czechs also had considerable losses.

(By Associated Press) BERLIN, April 10.—The Polish newspaper, Locus of Thorn, announces that according to the Franco-Polish military convention, France is requested to train the Polish army after the French system. Twelve hundred French officers, the newspaper says, will begin training soon.

Fire Truck Collides  
With the Kirchen Car

Mr. and Mrs. John G. Kirchen had a narrow escape from being crushed to death last night while riding in their limousine on Main street through a collision with the fire truck while the latter was responding to a call from Upper Florence avenue. The truck was manned by two men owing to the absence of one of the crew on his day off and the fact that Chief Askins was not in the house when the call was received. The men say they rolled out down the hill constantly ringing the bell and sounding on Main street. As the truck turned south on Main street, the Kirchen car driven by Mrs. Kirchen, was near Brougher, almost in the middle of the road heading north, when encountered. Neither driver could stop or avoid the other and a side head collision resulted. The impact threw the occupants of the limousine into one corner. It was feared that the shock would have serious consequences for Mr. Kirchen, whose amputated limb was just healing, and it was feared that the new skin forming over the end of the limb would be torn. As it happened the laceration was light and Miss La Fleur, the nurse, who had the case from the beginning and was in the car, gave prompt first aid. The impact caused a nervous shock which will delay the recovery of the patient for two weeks longer. It has been suggested that the fire department have installed at the flagstaff at the intersection of Brougher avenue a powerful gong which could be tripped when an alarm comes in so that traffic would swing in to the curb and leave the right of way for the fire truck. This system has been adopted in congested city districts where traffic jams sound the gong compelling all vehicles to come to a dead stop until after the fire apparatus passes. The fire truck was put out of commission and the Kirchen car is badly damaged.

Hides in the Jungle  
During Whole War

(Correspondence Associated Press) SYDNEY, Australia, March 5.—Konrad Detzler, a German army engineer who had been hiding in the New Guinea jungles for years, or since the beginning of the war, has come back to civilization and now is in an internment camp in Australia. Detzler's story is an a par with other romantic incidents of the war as it affected the South Sea. Detzler holds a captain's commission. When the war began he was surveying the boundary line between the then Kaiser Wilhelmland or German New Guinea, and Papua, or British New Guinea. He decamped into the bush. This was a risky act for the bushmen prefer human flesh above all other kinds. When Australian forces occupied Kaiser Wilhelmland, Detzler was overlooked. For more than four years Detzler lived in the bush near Mismis. He had a shotgun but it was not long before he ran out of cartridges. Thereafter he lived on yams, taro and kau (a variety of sweet potato)

CYCLONE TEARS  
THROUGH WEST

(By Associated Press) DALLAS, Texas, April 10.—One hundred dead have been listed as victims of the tornado which yesterday struck Northern Texas, Southwestern Oklahoma and parts of Kansas, where order began to be reached today. Some of the injured were so badly hurt that they cannot recover. It is expected these may number several hundred. Property damage, while it will run into many thousands of dollars, will be smaller than first expected, owing to the fact that the storm avoided all the principal cities and struck only farm houses and small villages. Last night the homeless were cared for by neighbors. The storm, in its erratic course, did not devastate entire regions, often leaving several houses untouched, then dipping in and demolishing the next few homes. The temperature dropped to freezing along the northern line of the storm area and added to the discomfort. The entire storm did not last more than one hour.

(By Associated Press) WASHINGTON, D. C., April 10.—The southwestern disturbance which passed through Texas and Oklahoma Wednesday night and Wednesday was central today over Iowa with increased intensity, according to the weather bureau.

CASUALTIES OF THE  
ARMY DENTAL CORPS

(By Associated Press) WASHINGTON, D. C., April 10.—Casualties among the dental corps of the army announced today disclose that six officers of the corps were killed in action. Forty-seven other officers of the corps died of disease.

SPREAD OF BOLSHIEVISM

(By Associated Press) BERLIN, April 10.—Diplomatic relations have been established between the Russian and Bavarian Soviet governments, according to the Zuehrblatt yesterday.

KOREANS ORGANIZE

(By Associated Press) HONOLULU, April 10.—Koreans of Honolulu have organized a Red Cross unit to work for the relief of victims of the recent anti-Japanese demonstrations in their homeland. At the first meeting a fund of \$400 was subscribed.

SALE OF TONOPAH BLOCK  
OPPOSITE THE BONANZA

Warren Richardson has taken title to the former Tonopah building block occupying the entire Brougher avenue frontage between St. Patrick and Central streets, bounded on the south by an alley separating it from the Odd Fellows building. The block is 100 by 90 feet on both ends making three business exposures. The owners were J. J. McCoppin, Mrs. Kate McQuillan and the Tonopah Banking Corporation. The ground has been vacant since the fire of 1912. The purchase was made for an outside buyer.

Hides in the Jungle  
During Whole War

(Correspondence Associated Press) SYDNEY, Australia, March 5.—Konrad Detzler, a German army engineer who had been hiding in the New Guinea jungles for years, or since the beginning of the war, has come back to civilization and now is in an internment camp in Australia. Detzler's story is an a par with other romantic incidents of the war as it affected the South Sea. Detzler holds a captain's commission. This was a risky act for the bushmen prefer human flesh above all other kinds. When Australian forces occupied Kaiser Wilhelmland, Detzler was overlooked. For more than four years Detzler lived in the bush near Mismis. He had a shotgun but it was not long before he ran out of cartridges. Thereafter he lived on yams, taro and kau (a variety of sweet potato)

AS MATTER SELF PROTECTION  
MEN FINALLY CONSENT TO  
GO TO THE FIGHTING FRONT

(By Associated Press) ARCHANGEL, April 10.—A company of American troops recently showed some hesitation about returning to the fighting front south of Archangel, declaring war with Germany was over that the United States was not at war with the Bolsheviki. The regimental commander in a speech said they were fighting a desperate defensive battle and appealed to the traditions of the American army.

BRITAIN AND SPAIN  
SIGN CONVENTION

(By Associated Press) MADRID, April 10.—Premier Romanones is in conference today with the British ambassador concerning a convention between Great Britain and Spain which will be signed tomorrow by England. This treaty will permit the importation of Spanish oranges and England will ship Spain 10,000 tons of coal monthly. Spain will lend Britain 75,000 pesetas at 5 per cent.

TRAFFIC INCREASES  
AS DIVIDE GROWS

The rush of mining men and camp followers to the Divide district has been so great that passenger traffic over the Mina branch of the Southern Pacific and the Tonopah & Goldfield railroad has increased 100 per cent according to figures compiled by the Tonopah & Goldfield road. Over fifty men arrive daily bound for the Divide and the number is steadily increasing. It has been found necessary to add two additional Pullman cars to the train before it leaves Sparks. There is also an unprecedented increase in automobile traffic between Reno and the Divide district, an average of twenty machines passing over the road daily by way of Reno, Fallon, Rawhide and Mina. The stakes at Mina are doing a big business in caring for these travelers. The mining situation at Divide has resulted in the shipment of considerable foodstuffs, building materials and mining materials, but at present the demand is being met by the sale of second hand equipment from Goldfield and surrounding camps. The operators think that it consumes too much time to secure new machinery and are buying second hand machinery when it can be secured. Railroad officials look forward to a large increase in freight traffic when this supply has been exhausted and the operators commence buying new materials from outside points. A large amount of the fuel is also being handled by the Southern route over the Tonopah & Tidewater railroad—Reno Gazette.

JEW IN PALESTINE  
ARE SMALL FACTOR

(By Associated Press) NEW YORK, April 10.—The latest census of Palestine places the Jews at less than 7 per cent of the entire population and shows that only one in each thousand possesses land, according to a cablegram from Alnady Alaraby, an organization representing the Jews in Palestine, made public today by the Palestine anti-Zionist society.

WEDGE DIVIDE SHAFT  
HAS BETTER VALUES

Values on the Gold Wedge are improving and appearances indicate that after passing through the shallow cap into the brecciated zone, the shaft has cut the edge of the immense reef which shows on the surface where it shows a width of 200 feet. The shaft cut a siliceous formation at 85 feet and samples taken Tuesday ran \$8.40. Samples taken last night which will be run today gave a long string of colors and E. A. Mead, secretary of the company believes they will go between \$11 and \$12. BOLSHIEVIKI REPORT ANOTHER SOVIET FORMED (By Associated Press) LONDON, April 10.—A proclamation has been issued stating that another Soviet republic has been formed at Salzburg, German Austria is reported in an Amsterdam dispatch today to the Central News. Salzburg is near the Bavarian border.

(By Associated Press) WASHINGTON, D. C., April 10.—The official report to the war department on the discontent of the American troops in Northern Russia is understood to contain about the same facts as related in the Associated Press dispatches. It is said there is nothing to show that the American officers at Archangel regarded the situation as serious.

In view of the situation which developed among American troops at Archangel official circles are impressed with the necessity for promptly relieving the American soldiers who now are in North Russia. The soldiers have interpreted the Washington statement that they will be relieved at the earliest possible moment as meaning not later than the first of June, when they believe Archangel navigation will be open and, while in a spirit of loyalty to the officers and American traditions, they express a willingness to stick until that date, they are exceedingly reluctant to go to the front and risk their lives.

WILSON MAKING  
GOOD PROGRESS

(By Associated Press) WASHINGTON, D. C., April 10.—President Wilson is "hammering ahead" and has made "good progress" in negotiations in Paris, according to advices received today at the White House. It was not stated what progress has been made but the advices seemed to cause considerable satisfaction in official circles.

JEW IN PALESTINE  
ARE SMALL FACTOR

(By Associated Press) NEW YORK, April 10.—The latest census of Palestine places the Jews at less than 7 per cent of the entire population and shows that only one in each thousand possesses land, according to a cablegram from Alnady Alaraby, an organization representing the Jews in Palestine, made public today by the Palestine anti-Zionist society.

Salzburg is near the Bavarian border.

BIG STICK USED  
BY THE JAPANESE

(By Associated Press) SEOUL, April 10.—Two Berghoz of the American consulate here, has made inquiry of the Korean governor general relative to the appearance on the streets of Japanese civilians armed with heavy clubs, suggesting that the practice might be dangerous to the lives of foreigners. In reply the governor general admitted that civilians were armed but said they had done so to protect themselves against Koreans.

SHEEP DIPPING LAW  
DECLARED VOID

(By Associated Press) CASPER, Wyo., April 10.—Sheep men in all sections of the state are deeply interested in a recent decision of the district court of the sixth judicial district rendering void a recent state law requiring dipping of sheep to prevent disease. Judge Charles E. Winter ruled that the state is without authority to compel dipping except in cases where animals already are diseased. The decision was rendered on a suit brought by several Natrona county sheep men. The state announced it would appeal to the supreme court to test the constitutionality of the law.

MANY KOREANS SLAIN  
IN DEMONSTRATION

(By Associated Press) PEKIN, April 10.—More than 20 Korean demonstrations occurred in the vicinity of Seoul March 27, according to the Korean Daily News, copies of which arrived here today, which said that Japanese soldiers attacked the crowds with guns, swords and bayonets. Many Koreans were killed.
